## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6-8, drawn to encrypting a signal using a random numbers, classified in class 380, subclass 44.
- II. Claims 10-12, drawn to apparatus for generating random numbers, classified in class 708, subclass 250.

Inventions of claims 6-8,10-12 are related to as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. Encrypting a signal using a random numbers apart from being used with invention of claims 10-12 in that, using random numbers to cipher a data can be implemented in many different aspect of cryptographic field such as random key encryption or cipher key management. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated as proper. These two separate classifications is an indication of burden on the examiner as reason stated above.
